

Accommodation

Lisbon stands as a significant destination for both tourism and business, offering a range of accommodation options such as traditional large hotels, boutique hotels, and guest houses, alongside numerous short-term rental properties available on popular online booking platforms.

For the convenience of attendees, the conference organizers recommend selecting accommodation within the city center, particularly in proximity to Marquês de Pombal and Av. da Liberdade. This central location facilitates easy access to conference venues, including the opening session, ISEG, and the gala dinner, while also providing opportunities for exploring the city.

However, considering the diverse needs of attendees and the location of conference venues, we'd like to highlight alternative accommodation options. It's advisable to check online booking platforms for potential deals, bearing in mind that a municipal tourist tax of 2 € per person per night applies for up to 7 nights.

The prices listed typically include breakfast but may be indicative or subject to availability. Therefore, we recommend double-checking prices before finalizing any bookings.
